New Staffing Structure at JFI

The Joggins Fossil Institute Board of Directors adopted a new management model for the Institute, one that is non-hierarchical. Introducing the “new” team:

Director of Administration:

Ms. Lorna Terrio

Director of Operations:

Mr. Jordan LeBlanc

Director of Science (aka Curator of Palaeontology):

Dr. Melissa Grey

This new model allowed JFI to hire a new **Education and Outreach Manager position**. Ms. Laurie Glenn Norris (MA) was raised in Lower Cove and, after many years away working as Curator for the Cumberland County Museum, attaining her Master's of Arts from the University of Victoria, and working at the Beaverbrook Art Gallery in Fredericton, she has returned to the area. Welcome home Laurie!

New Exhibit Unveiling: July 7th

You are invited to “Grindstone Day” at the Joggins Fossil Centre!

Come help us celebrate our World Heritage Inscription Anniversary with an exhibit unveiling, special guests and treats from the Café.

Welcome (back) to our Summer Staff!

We are so pleased to welcome our summer staff back to the Centre this year – many term and student positions are filled by the same people that you may have met last year: Sander, Max, Sally, Rebecca, Ben, Calvin (back row, left to right), Dana, Joyce, Cathy (front row, left to right) and Chef Corey (not pictured).

Summer Children's Day Camps start on July 5th and will run every Tuesday until August 23. Children between the ages of 5 and 12 are welcome to join us for fun and educational activities at the Joggins Fossil Centre! Please pre-register as space is limited. Contact Laurie for more information: education@jogginsfossilcliffs.net

Annual General Meeting and Report

The Joggins Fossil Institute held its Annual General Meeting on May 26, 2016, during which our Annual Report for 2015-16 was released. Check it out online at:
